Duties of Carpenter:

As Carpenter, you will be responsible for a variety of tasks including measuring, cutting, and fastening materials made of wood, wood substitutes, and lightweight steel. You will read and interpret blueprints, prepare and build foundation systems, install floor beams and joisting systems, lay subflooring, and erect walls and roof systems. Additionally, you will fit and install doors and windows, maintain, repair, and renovate residences, and use and maintain power and hand tools common to the trade. Your duties also include cutting metal framing and trim to size, installing metal studs, reading blueprints to determine installation methods, measuring and marking surfaces, daily clean-up of job sites, and maintaining a safe and professional work environment. You will provide feedback on progress and deficiencies, train construction helpers, and perform other duties as assigned to support our growing company.
